

### Southern Adirondack Chapter testing refund policy

You will need to include your NAVHDA International member number along with your dog's registration number on the application. Your dog must be NAVHDA registered in order to enter a test. If your dog is not registered, then please do so by contacting the NAVHDA International office at 847-253-6488 or by e-mail at [navhda@navhda.org](mailto:navhda@navhda.org). Only completed applications can be processed to participate in the Southern Adirondack test. We cannot, and do not, hold spots unless the complete application and the test fee are received. Your entry fee will not be returned to you unless we can fill your place in the test four (4) weeks prior to the test. In the event you pull your dog within the four weeks period prior to the test, your entry fee will not be returned to you. If your dog cannot run due to an injury, within the four week period, your entry fee will be refunded, provided the slot can be filled, and documentation from your vet is provided. A participant can only test a maximum of two dogs in our test. In the event that, four weeks prior to the test, that test is not full, then the chapter reserves the right to allow a handler to test more than two dogs.
